

Fire Prevention 1

Activity 2-1

Relationship between Historic and Modern Fire Problems

Activity 2-1

Format: Group

Timeframe: 1:30 (45 minutes reading and discussion / 45 minutes presentation)

Description

This activity provides students with an opportunity to recognize the historic fire problems in today's occupancies.

Materials

- Historic fire articles focused on the following occupancies:
 - Assembly
 - Industrial
 - High rise
 - Educational
- Modern fire articles focused on the following occupancies:
 - Assembly
 - Industrial
 - High rise
 - Educational
- Fire Hazard Worksheet (FHW) from Activity 2-1-1
- Pen or pencil

Instructions

1. Working in groups, read about a historical and modern fire in a particular occupancy
2. Discuss the deficiencies that led to a fire loss
3. Individually, complete the Fire Hazard Worksheet for the assigned occupancy
4. Choose a group spokesperson and be prepared to discuss your answers with the class

Instructor Notes

- Articles and the Fire Hazard Worksheet are available on the SFT Instructor's Corner website
- You can substitute local fire articles for modern fire articles
- Assign article reading as pre-work before the class
- The Fire Hazard Worksheet will also be used in Activity 2-5 and Activity 4-2

Comment [ALS1]: Action Item
Need to get PDF from Rocque.
Emailed 3.14.12.

Comment [ALS2]: Instructions
Post in Instructor's Corner.
Included at the end of this document.
